Serial Number See table included	Subject NEW POSTER Jacobs Douwe Egberts	ISSUED FOR (X)	Action Information X

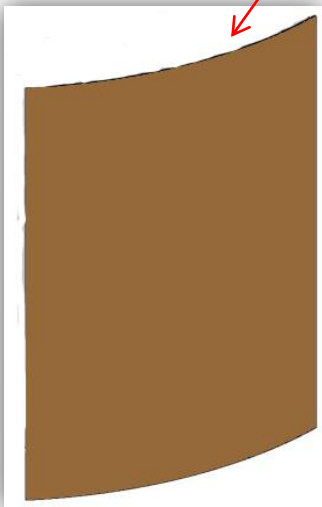

REASON

A new brand has been defined for all the Douwe Egberts markets, so a new Poster has been introduced. Below a picture of the **old** “Poster Frame” made by a **single graphic panel**.

MODIFICATIONS:

➤ Gallery 220 (7100 all variants), Gallery 310 (7300 all variants) and Cafitesse Vending (all variants)

Poster Frame - Current situation ONLY for The Netherlands
This picture refers to a Gallery 220

Poster JDE:
single graphic panel
Old graphic

*Coffee window available only for Freshbrew, Espresso and Bean to cup variants (as today).

The **new** Poster “**Black background and smoke JDE**” is no longer a single graphic panel, but it’s a **sandwich made of two pieces**, directly mounted in the door of the machines above mentioned.

The poster material is different from the previous one, because the old poster (PVC treated) was in direct contact with the final user in front of the machine.
