**REASON:**

Due to a new aesthetical request for the Netherlands market, a new Poster has been introduced. Below a picture of the old “Poster Frame Assembly”: Poster Frame + a **Sandwich** made by

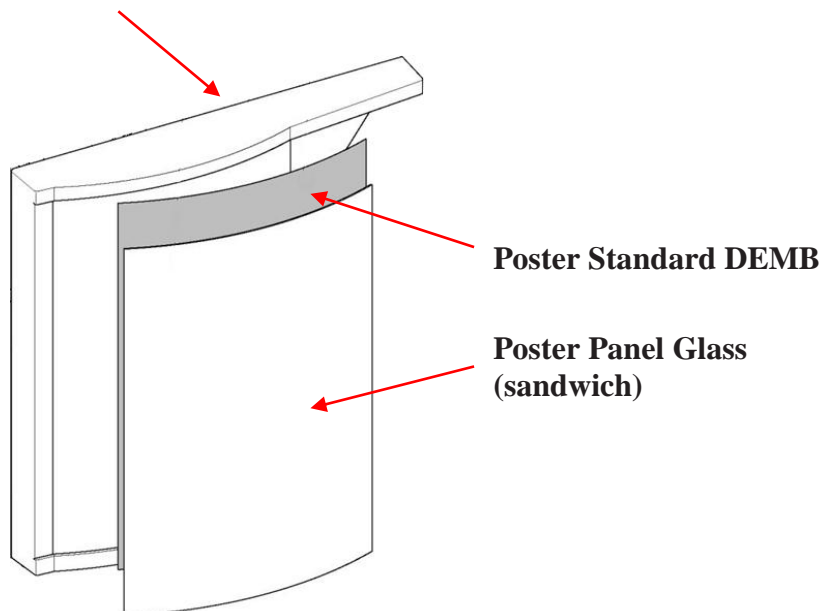

- Poster Standard DEMB
- Poster Panel Glass

**MODIFICATIONS:**

**Gallery 220 (7100 all variants NL), Gallery 310 (7300 all variants NL) and Cafitesse Vending (all variants NL)**

*Poster Frame – Current situation*

This picture refers to a CFT 2100

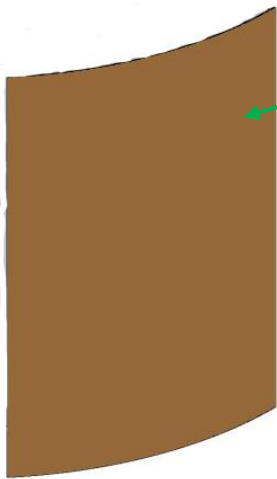

The new Poster “**Black background and beans DEMB**” is no longer a sandwich made of two pieces, but it’s a single graphic panel directly mounted in the door of the machines above mentioned.

The poster material (PVC treated) is different from the previous one due to the direct contact with the final user in front of the machine.
