

Range SA Large Regional	Model W100	N° T.I. 10_2025
Serial Number 51121274	Subject NEW NON-RETURN VALVE SOLUTION	WITTENBORG

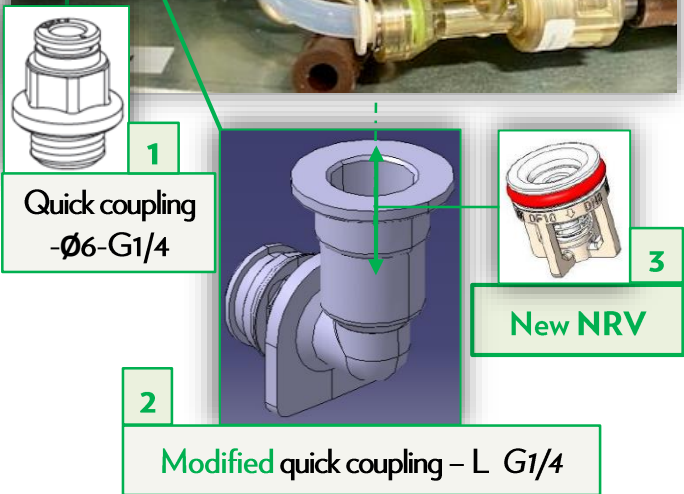

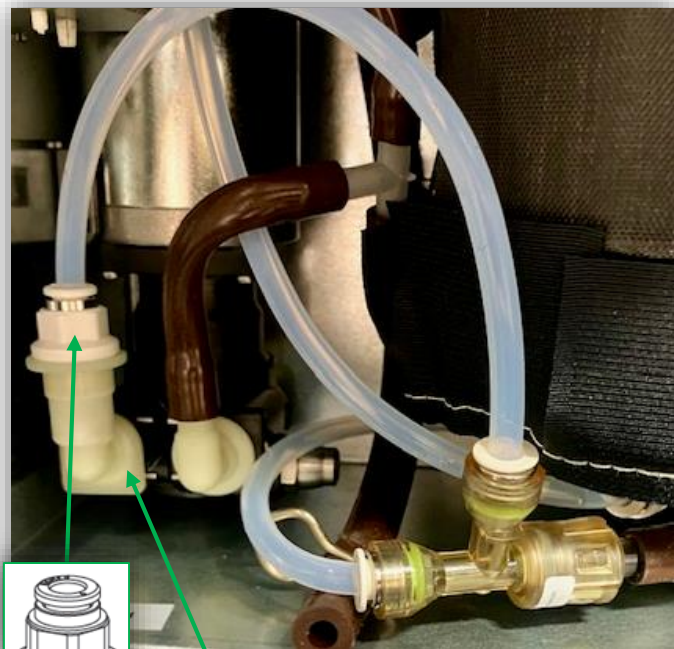

Reason

Be informed that to improve our equipment

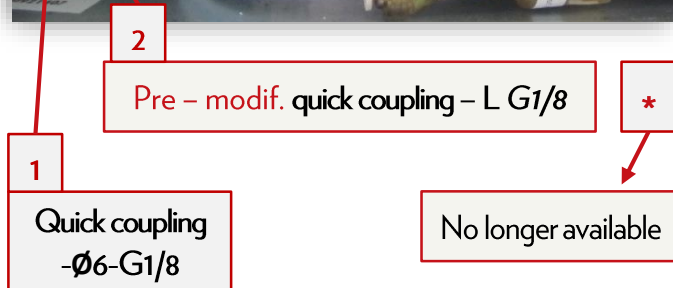

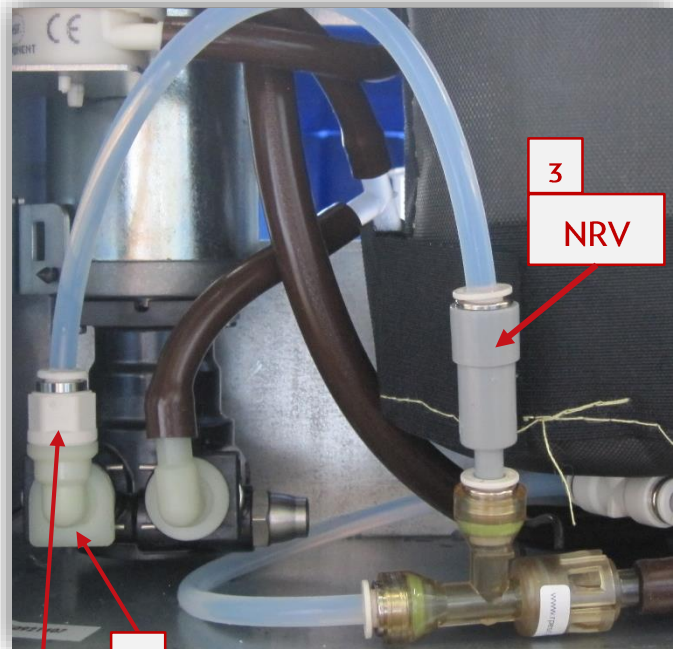

Modifications

starting from S/N 51121274, machines are equipped with a **new non return valve** solution, which involves the modification of some components; the lengths of the hoses remain unchanged.

New non return valve solution

Pre - modification non return valve solution

The **new non-return valve (3)** is housed in the **modified quick coupling - L G1/4 (2)**

Range SA Large Regional	Model W100	N° T.I. 10_2025
Serial Number 51121274	Subject NEW NON-RETURN VALVE SOLUTION	WITTENBORG

Exchangeability

For machines previos to **S/N** above, it is possible to switch to the **new** solution by ordering the *"quick coupling with non-return valve"* KIT (spare code: **267581**), composed of the components listed in the table *"New non-return valve solution"* (see below).

Please note:

- ✓ for machines previos to **S/N** above it is not required to replace the NRV.
- ✓ The **pre -modification** NRV and the **pre -modification** quick coupling $\emptyset 6$ -G1/8 PPSU are still available, while the quick coupling - L G1/4 (code **266964**) in the **pre-modification** version (G1/8) is no longer available.
- ✓ If the **quick coupling - L G1/8** (no longer available) is required, it is necessary to order the KIT indicated above.

New non-return valve solution

N	Description	Spare code
1	QUICK COUPLING $\emptyset 6$ -G1/4 PPSU	267336
2	QUICK COUPLING - L G1/4	266964
3	CHECK VALVE	267335

Pre -modification non-return valve solution

N	Description	Spare code
1	QUICK COUPLING - $\emptyset 6$ -G1/8 PPSU	263425
2	QUICK COUPLING - L G1/8	No longer av.
3	NRV-TEF6	266400
