

Range OCS	Model MAGIC	N° T.I. 10_2024
Serial Number See below	Subject NEW "ITALMILL" BLADES and COVER with BLADES accessibility	

Reason

Change of blades supplier and introduction of **new** machine cover with *blades accessibility*.

Modifications

Following a change of supplier, we replaced the *Tecna* blades with **Italmill** blades.

The blades are 100% compatible and interchangeable.

The new blades will be available as spare parts only in pairs, with code **266230**, and not singularly as previously.

We have also introduced the **new emptying upper cover** (spare part code **265672**) with the possibility of accessing the blades from machine upper part, without opening machine from back but only by removing coffee bean *container*.

In addition to **new cover**, we have also changed the grinder **gasket**, **new** code: **265673**, and the *upper grinder support* (spare code: **266123**).

New machine cover

New emptying upper cover
Spare code: **265672**

New coffee grinder gasket
Spare code: **265673**

New upper grinder support
Spare code: **266123**

New Italmill blades
Spare code: **266230**
