

T.I. no.: 2019 - 09 Updated: -	Topic: SCA P Software 6.31
--	-----------------------------------

Date: 12.06.2019	Priority	Need for action
Affected machines: SCA P	High	As soon as possible
From serial number: 1923../	Medium	On next visit to the machine
As of date: -	X Low	X FYI only

NEW FUNCTIONS AND IMPROVEMENTS

The following is an overview of the new functions and fixed errors:

New functions:

- The idle period after dispensing milk is now also performed after cold milk is dispensed. The manually-set pauses in recipes with cold milk dispensing might have to be deleted.
- With a 30 g brewing unit, the pre-brewing volume can now be set to max. 30 ml.
- The options available in the "Quick menu" with the CHEF card can be adjusted in Standby mode. You can also set whether the menu should be displayed at all with the CHEF card.
- "Start machine with PIN" has been integrated. If PIN "0000" was set, the query is ignored.

Improvements

Accounting system

- The price editor in the MDB price list is always ended correctly.
- Double dispensing with the "Barista Silver" design is booked correctly via the MDB payment system.
- Prices cannot be set on the machine for CSI/CCI.
- Incorrect MDB accounting system for dispensing with "free card" fixed.

Telemetry

- Telemetry traffic when starting up the machine reduced.

Miscellaneous

- Tab 4 is correctly displayed or hidden in Operator mode.
- Timers work correctly.
- If beverages are "copied and moved", all settings are correctly adopted.
- Limit values for NTC sensor for steam, hot water and coffee water boiler adjusted. This eliminates faulty NTC error messages.
- Translations integrated.
